

## CAN WE HELP TO SIGNIFICANTLY REDUCE THE LOSS OF BIODIVERSITY BY 2010?

Get out of the house and learn about the International Biodiversity target and how you can play a role in helping to achieve that goal.

If you have an interest in BioDiversity and our ecosystems, get the inside track on the Convention on Biological Diversity (CBD) and what it means to the landscape we all love and work for.

P.O.W.E.R. is thrilled to bring you Christine Gibb, from the United Nations Convention on Biological Diversity secretariat.

Christine will speak on the Convention on Biological Diversity, the work of the secretariat, International Biological Diversity Day as well as the world wide goal, agreed to by Canada and other countries, to significantly reduce the loss of BioDiversity by 2010.

Free Event - Donations Welcome!

Where: Christ the King High School - Auditorium

Date: Wed Feb 18<sup>th</sup>

Time: 6:30 pm (doors open)

Christ the King is at

161 Guelph St Georgetown, ON L7G 4A6
